Comment. Since it is believed that the actual dispatching and receiving stations were known in only a few cases, no definite conclusions can be drawn on departure, destination and loading of the troop trains. The troop trains on 25, 26 and 27 September 1954 probably operated in connection with movements of the IX Mtz Rifle Corps to the Wiesenburg-Belzig-Brueck assembling area from which the fall maneuvers of the corps started in a northwesterly direction.

Comment. The troop trains carried components of the 7th Gds Mecz Div to their home station at Frankfurt/Oder and Fuerstenwalde. The return movement started on 23 September. Most of the trains reported up to 26 September 1954 went to Frankfurt/Oder.
